# EVENTS AT NEWMAN CENTRE

Faith and Reason lecture

## How the West Really Lost God

Dr. Mary Eberstadt

Senior Research Fellow, Faith and Reason Institute, Washington, D.C.,  
and an American essayist, and author.

Friday, November 9, 2018 | 7:00 pm

Register here: <https://newmannov8.eventbrite.ca>

**Synopsis:** In this magisterial work, cultural critic Mary Eberstadt delivers a powerful new theory about the decline of religion in the Western world. The conventional wisdom is that the West first experienced religious decline, followed by the decline of the family. Eberstadt turns this standard account on its head. Marshalling an impressive array of research, from fascinating historical data on family decline in pre-Revolutionary France to contemporary popular culture both in the United States and Europe, Eberstadt shows that the reverse has also been true: the undermining of the family has further undermined Christianity itself.

Eberstadt then lays out the ramifications of the mutual demise of family and faith in the West. While it is fashionable in some circles to applaud the decline both of religion and the nuclear family, there are, as Eberstadt reveals, considerable social, economic, civic, and other costs attendant on both declines.
